

Part B

Reconditioning

1. The reconditioning process shall not create risks to the health and safety of those responsible for doing so and strive to reduce its impact on the environment. It shall be operated in accordance with applicable legislation on contact sensitive materials.
2. Reconditioning shall cover the following operations adapted to the reusable packaging format and its intended use:
 - (a) assessment of condition of packaging;
 - (b) removal of damaged or non-reusable components;
 - (c) conveyance of removed components to an appropriate recovery process;
 - (d) cleaning and washing according to required hygiene conditions;
 - (e) reparation of packaging;
 - (f) inspection and assessment of fitness-for-purpose.
3. Where necessary, cleaning and washing processes should be applied at different stages of the reconditioning and repeated.
4. The reconditioned product shall meet health and safety requirements applicable to it.

Part C

Requirements for refill

As regard refill stations shall fulfil the following requirements:

- (a) contain a clear and precise information on:
 - (i) hygiene standards that the end user's container has to meet in order to be allowed to use the refill station;
 - (ii) information about the end user's responsibility to maintain the hygiene standards;
 - (iii) types and features of containers that can be used to purchase products through refill;
- (b) contain a weighing device allowing the end user's container to be weighed;
- (c) the price paid by end users should not include the weight of the refill container;
- (d) the final distributor to ensure compliance with applicable hygiene standards.
