

Statement of producer of batteries and accumulators placed on the market in the Slovak Republic

Batteries and accumulators				Primary (non-rechargeable)			Secondary (Rechargeable)			Quantity of batteries incorporated in KG	Total KG	Total EUR
				Manufacture	Import	Export	Manufacture	Import	Export			
Type	Weight Specification	Chemism	Abbreviation									
1. Portable batteries	1.1. Portable batteries	up to 5 kg	zinc-carbon and zinc-chloride	ZnC, ZnCl								
			alkaline-manganese	AlMn								
			lithium	Li								
			lithium-thionyl-chloride	Li-SoCl2								
			lithium-ion, lithium-polymer	Li-Ion, Li-Pol								
			nickel-metal-hydride	NiMH								
			silver-oxide	AgO								
			zinc-air	ZnAir								
			other									
2. Industrial batteries	2.1. LMT batteries	up to 25 kg	lithium	Li								
			lithium-ion	Li-Ion								
			lead	Pb								
			other									
	2.2. Industrial batteries	up to 25 kg	Lithium	Li								
			lithium-iron-phosphate	LiFePO4								
			lithium-ion, lithium-polymer	Li-Ion, Li-Pol								
			nickel-metal hydride	NiMH								
			lead	Pb								
			nickel-cadmium	NiCd								
			other									
		over 25 kg	lithium	Li								
			lithium-iron-phosphate	LiFePO4								
			lithium-ion, lithium-polymer	Li-Ion, Li-Pol								

			nickel-metal-hydride	NiMH										
			lead	Pb										
			nickel-cadmium	NiCd										
			other											
2.3. EV batteries	over 25 kg	lithium-ion	Li-Ion											
		other												
3. Automotive batteries	3.1. SLI batteries	without weight specification	lead	Pb										
			lithium-ion, lithium-polymer	Li-Ion, Li-Pol										
			other
